

**Saturday, September 8, 2012**

8:00-15:00 Registration

Awaji Yumebutai International Conference Center 2F Main counter

Awaji Yumebutai International Conference Center

Main Hall 2F

8:30-9:30 PLENARY SESSION #6 Topic: Peripheral artery disease

Moderators: Tadahiro Sasajima (Asahikawa Medical University)

Werner Lang (Universitätsklinikum Erlangen)

Key Note Lecture 6: Takashi Ohta (Aichi Medical University)

Title: Low Probability of Survival in Chronic Hemodialysis Patients  
with Foot Lesions

21. Peter Fellmer (University of Leipzig)

Early results after peripheral vascular replacement  
with biosynthetic collagen prosthesis in cases of graft infection

22. Thomas Grube (Hospital Greiz, Thuringia, Germany)

Rediscovery of the arm vein as probate bypass material

23. Wakako Fukuda (Hirosaki University)

The role of screening for ischemic heart disease in ASO patients

24. Taku Kokubo (Edogawa Hospital)

Efficacy of low dose PGE1 infusion after paramaleolar bypass  
-trial of poor run-off cases-

9:30-10:10 Special Lecture #2

Moderators: Hiroshi Otake (Kanazawa University)

Lecture 3: Thomas Noppeney (Center for Vascular Diseases, Nuernberg,  
Germany)

Title: Venous aneurysms – dangerous condition or not

Lecture 4: Walter Wohlgemuth (Universitätsklinikum Regensburg)

Title: Endovascular therapy of vascular malformations  
-new therapy approaches

10:10-10:30 Break-Time to visit the Exhibition and Poster

10:30-11:40 PLENARY SESSION #7 Topic : Vascular

Moderator: Nanao Negishi (Musashino General Hospital)

Thomas Noppeney (Center for Vascular Diseases, Nuernberg,  
Germany)

Key Note Lecture 7: Masayoshi Okada (International Institute for Advanced  
General Medicine)

Title: Surgical treatment for venous disorders of the superior vena cava

25. Masao Tadakoshi (Aichi Medical University)  
Persistent sciatic arteries accompany anatomic variations of lower extremity venous system
26. Koji Shinozaki (Kobe Ekisaikai Hospital)  
Early results from subfascial endoscopic perforator surgery (SEPS) for severe stasis dermatitis and ulcer
27. Djamal Zidane (Evangelisches Krankenhaus Königin Elisabeth Herzberge, Vascular Surgery, Berlin, Germany)  
Arterio-arterial interposition grafts as access for hemodialysis
28. Juno Deguchi (Saitama Medical Center)  
Preoperative serum albumin value together with PREVENT III risk score is new risk stratification for critical limb ischemia patients with end stage renal failure
29. Thomas Noppency (Center for Vascular Diseases, Nuernberg, Germany)  
Saphenous vein ablation with radiofrequency- 4 year results of the European closure fast study

Awaji Yumebutai International Conference Center  
Reception Hall B 2F

12:00-13:00 Luncheon Seminar II  
Moderators: Takashi Ohta (Aichi Medical University)  
1. Tadahiro Sasajima (Asahikawa Medical University)  
Title: Distal venous arterialization for limb salvage in patients without graftable distal arteries.  
2. Werner Lang (Universitätsklinikum Erlangen)  
Title: PAOD

13:00-14:00 Break-Time to visit the Exhibition and Poster  
Main Hall 2F

14:00-15:00 PLENARY SESSION #8 Topic: Science  
Moderators: Thomas schmitz-Rixen (Goethe-University)  
Ikuo Fukuda (Hirosaki University)  
Key note lecture 8: Ikuo Fukuda (Hirosaki University)

30. Thomas schmitz-Rixen (Goethe-University)  
Strain Measurement of abdominal aortic aneurysm with 3D ultrasound speckle tracking
31. Thomas schmitz-Rixen (Goethe-University)  
Fluid shear stress responsive mRNAs are involved in arteriogenesis
32. Max Zegelman  
Infection in vascular surgery
33. Shinya Takahashi (Hiroshima University)

Efficacy of motor evoked potential during thoracic and  
thoracoabdominal repair in TEVAR era

15:00-15:40

PLENARY SESSION #9 Topic: Carotid artery

Moderators: Hiroyuki Ishibashi (Aichi Medical University)

Martin Storck (Städtisches Klinikum Karlsruhe

- Klinik für Gefäß-und Thoaraxchirurgie)

Key Note Lecture 9: Martin Storck (Städtisches Klinikum Karlsruhe

- Klinik für Gefäß-und Thoaraxchirurgie)

Title: Results of surgical reconstruction of the carotid artery

-German National Database

34. Senekowitsch Christian (Wilhelminenspital, Vienna, Austria)

Simulator training on pulsatile vascular models significantly improves  
surgical skills and the quality of carotid patch plasty

35. Masato Nishizawa (Tokyo Medical and Dental University)

The strategy for extracranial carotid artery aneurysms

15:40- Closing ceremony:

Ikuo Fukuda

President of 7<sup>th</sup> Meeting of the German-Japanese Society for Vascular Surgery

Professor and Head of Division, Department of Thoracic and Cardiovascular Surgery

Hiroaki University Graduate School of Medicine

“Friedrich Trendelenburg (1844-1924) ;Great German Surgeon and Venous Diseases”
